

50 Simple Phrases to Use with “Baby Shark”

Emily Ferjencik, MS, CCC-SLP

If you can't stop the “Doo doo doo doo doo doo” in your head then why not at least use it to help your little one learn NEW words and phrases?! Your little one already knows the tune and the motions, so use that to your advantage and just change the lyrics!

The “Baby Shark” song by Super Simple Songs is so catchy and repetitive... and repetitive... and repetitive. Kids love it!

If you have somehow missed the hysteria, you may want to check out the video on You Tube.

Use this simple melody to sing about daily routines, outings, behavior, playtime... ANYTHING! Just slow down the pace and PAUSE before that last word so that your little one can try to fill it in... then dance around and “doo doo doo doo doo doo...” Ha!

Of course any of the following objects or people could easily be changed out for whatever is more appropriate for that moment. Also, you could squeeze in an extra syllable or two if necessary.

Here are just 50 common, simple 3-syllable phrases we may want to teach our little ones:
